PURIFICATORE D'ARIA

Tensione adattatore alimentazione auto per auto: 12 V Amperaggio: 1,5 A
Con lo spazio chiuso in auto, l'aria non entra ed esce, l'aria diventa peggiore dello spazio esterno. Il nostro purificatore d'aria aiuta molto a migliorare l'aria in macchina, quindi consente di respirare aria fresca e salubre.

IT

DANGER

1. Non pulire la macchina con liquidi.
2. Non posizionare altri oggetti vicino alla presa
3. Non è consentito posizionarlo sopra l'airbag
4. Non invertire quando il dispositivo è acceso
5. Non consentito l'uso come giocattoli per bambini
6. Regola la macchina quando l'auto si ferma solo
7. Pulire la macchina con un panno morbido e pulito quando l'apparecchio è spento.
8. Non smaltire con altri rifiuti

MANUAL

IT

1. Rimuovere il coperchio del filtro
2. Rimuovi i filtri
3. Rimuovere il sacchetto di plastica
4. Inserire il filtro come direzione del tessuto
5. Assicurati che i filtri siano posizionati bene
6. Chiudere il coperchio del filtro

COME UTILIZZARE IL DISPOSITIVO

Premere il pulsante una volta, la macchina passa in automatico
 Premere 2a volta, la macchina passa alla modalità di sospensione /
 bassa potenza

Premere 3a volta, la macchina entra ad alta potenza

Premere 4 volte, la macchina tornerà alla modalità automatica

Il dispositivo è dotato di un rilevatore della qualità dell'aria. Se l'aria è di scarsa qualità, il dispositivo si accenderà automaticamente. Inoltre, il dispositivo segnala l'aria pulita con il LED blu. Se l'aria è contaminata, il diodo rosso si accende.

NUTIKAS AUTO ÕHUPUHASTAJA

Auto vooluadapter Võimsus: 12V 1.5A

Kinnises ruumis, kus õhk ei liigu sisse ega välja, muutub õhk väga ebameeldivaks. Meie õhupuhastaja aitab puhastada õhku autos sees. Sellest tulenevalt muudab Teile hingatava õhu värskemaks ja tervislikuks.

EE

OHT!

1. Ära puhasta seda seadet vedelikuga.
2. Ärge katke seadet võorkehadega.
3. Ära säti seda seadet auto õhkpadjale.
4. Ära pööra seadet tagurpidi, kui seade töötab.
5. Tegemist ei ole mänguasjaga.
6. Säti seadet ainult siis kui auto seisab.
7. Puhasta seadet puhta rätikuga väljalülitatud olekus.
8. Ära viska seadet ära koos tavaprügiga.

MANUAL

1. Eemalda filtri kate
2. Eemalda filtrid
3. Eemalda polybag
4. Sisesta uus filter
5. Tee kindlaks, et filtrid on kindlalt ja korrektselt paigaldatud
6. Sulge filtri kate

EE

3

4

5

6

KUIDAS SEADET KASUTADA

Vajuta nupule ühe korra, seade lülitub automaat režiimile

Vajuta nupule teist korda, seade lülitub unerežiimile

Vajuta nupule kolmandat korda, seade hakkab tööle suure võimsusega

Vajuta nupule neljandat korda, seade läheb tagasi automaat režiimile

Seade on varustatud õhu kontroll indikaatoriga. Kui õhu kvaliteet on kehva, hakkab seade automaatselt tööle. Puhta õhuga hakkab seadme indikaator põlema siniselt. Saastunud õhus on indikaator seadmel punane (Õhu kvaliteet on halb).

PURIFICADOR AIRE SMART CAR

ES

Con el espacio cerrado en el automóvil, el aire no entra ni sale, el aire se vuelve peor que el espacio exterior. Nuestro purificador de aire ayuda mucho a mejorar el aire en el automóvil, por lo tanto le permite respirar aire fresco y saludable y mantener una vida saludable.

SMART CAR AIR PURIFIER

RO

Fără ventilarea corespunzătoare aerul din spațiile închise devine mai nociv decât aerul din spațiile poluate. Aparatul nostru purifică aerul, îmbunătățind-ul.

Tensiune de masă: 12 V curent: 1.5A

Birourile sunt deseori foarte poluate. Vă recomandăm să utilizați produsele noastre prevăzute cu 3 filtre foarte eficiente. Generatorul de ioni negativi eliberează oxigen și concomitent eliminând mirosurile, praful și bacteriile. De asemenea, acești ioni contribuie la îmbunătățirea sistemului imunitar al omului.

PERICOL

1. Nu curățați aparatul cu lichide;
2. Nu așezați elemente străine lângă și nici în jurul aparatului
3. Nu așezați pe air-bag-ul din vehicule
4. Nu inversați în timp ce dispozitivul funcționează
5. Nu este jucărie pentru copii
6. Ajustați aparatul numai după ce ați oprit vehiculul
7. Curățați aparatul cu o cârpă uscată și moale după ce ați oprit aparatul
8. Nu depozitați cu deșeurile biodegradabile

Indicatorul de aer afișează culoarea albastră (calitatea aerului este bună)

Indicatorul de aer afișează culoarea roșie (calitatea este rea)

SMART AUTO ČISTIČ VZDUCHU

Adaptér nabíječky automobilu; Napětí: 12V; Proud: 1.5A

V uzavřeném prostoru auta vzduch nedostatečně cirkuluje, nedostává se dovnitř ani ven a jeho složení se po chvíli stává horší, v porovnání s venkovním ovzduším.

Naše mini čistička vzduchu výrazně pomáhá při zlepšení vzduchu v autě. Díky čističce budete ve vašem automobilu opět dýchat čerstvý a zdravý vzduch.

CZ

VÝSTRAHA

1. Zařízení nečistěte kapalinou.
2. Pozor, nevkládejte do zásuvky a jejího okolí žádné cizí předměty.
3. Nesmí být umístěno na auto airbagu.
4. Během používání neobracejte.
5. Není určeno jako hračka pro děti.
6. Zařízení obsluhujeme pouze tehdy, když vozidlo stojí.
7. Zařízení vyčistěte měkkým, čistým hadříkem, když se přístroj nepoužívá.
8. Nelikvidujte s běžným komunálním odpadem.

PŘÍRUČKA

1. Vyměte kryt filtru
2. Vyměte filtry
3. Vyměte pytlík
4. Filtr vložte ve směru tkaniny
5. Ujistěte se, že filtry jsou dobře umístěné
6. Zavřete kryt filtru

AKO POUŽÍVAŤ ZARIADENIE

Stlačte raz tlačidlo, prístroj vstúpi do režimu auto

Stlačte druhýkrát, zariadenie vstúpi do režimu bdenia / pomalého režimu

Tretím stlačením spustíte rýchle filtrovanie

Stlačte tlačidlo štvrtýkrát, prístroj sa vráti do režimu auto

Prístroj je vybavený detektorom kvality vzduchu. Ak je ovzdušie v zlej kvalite, zariadenie sa automaticky zapne. Zariadenie navyše signalizuje čistý vzduch - zapnutie modré LED diódy. Ak je vzduch znečistený, rozsvieti sa červená dióda.

BEDIENUNGSANLEITUNG

Autoadapter mit 15 Volt

Stromstärke: 1,5 A

Im geschlossenen Fahrzeugraum, wo nicht genügend Luft zirkuliert, wird die Luft zunehmend schlechter als draußen. Unser Auto Luftreiniger trägt viel zur Luftverbesserung im Auto bei. Er ermöglicht Ihnen, frische und gesunde Luft zu atmen, um Ihre Gesundheit zu erhalten.

DE

GEFAHR

1. Gerät nicht mit Flüssigkeiten reinigen
2. Halten Sie alle Luftschlitze frei
3. Nicht auf einem Airbag anbringen
4. Während des Betriebs nicht öffnen
5. Nicht als Kinderspielzeug geeignet
6. Gerät nur bei gestopptem Fahrzeug bedienen
7. Nur bei ausgeschaltetem Gerät mit einem weichen Reinigungstuch reinigen
8. Nicht im Hausmüll entsorgen

ANLEITUNG FILTEREINSATZ

1. Filterabdeckung abnehmen
2. Filter entfernen
3. Verpackung entfernen
4. Filter mit der Filterlamellen seite nach unten einsetzen
5. Prüfen, ob der Filter richtig sitzt
6. Geräteabdeckung wieder aufsetzen

GERÄTEBEDIENUNG

Knopf 1x drücken, der Filter schaltet in den Automatik Modus
 Knopf zweites Mal drücken, Gerät schaltet in Schlafmodus
 Knopf drittes Mal drücken, Gerät schaltet in den high speed Modus/
 schnelle Filterung
 Knopf 4x drücken, Gerät schaltet wieder in den Automatik Modus

Das Gerät ist mit einem Qualitätssensor ausgestattet. Wenn die Luftqualität schlecht ist, schaltet sich der Reiniger automatisch an.

Wenn die blaue LED leuchtet, ist die Luftqualität in Ordnung. Bei schlechter Luft leuchtet die LED rot.
