- Advanced luminous technology, no glare, no stroboscopic,light softly
- High technology light conductor, long life, and minimal droop
- Touch the switch, the brightness is adjustable, operation more convenient
- 3 color temperature adjustment,feels more comfortable
- Three-dimensional all-round illumination angle satisfies the requirement of different using environment.
- Foldable construture,small volume
- With calendar display & alarm clock & thermometer functions

Saving 1/3	"0" UV light	Eye protection soft light	Nature	Adjustable	Eco-friendly
than traditional bulb	No hurt the skin	Dizzy-proof light filter	Natural light	Color temperature adjustment	Free mercury & Lead

Specification

| Material	ABS+Metal	Input	DC5V/1A
Maximum current	5V 800mA		
Warm white light CTT:2800-3300K /Cold white light CTT:6000-6500K/ Natural light CTT :3800-4400K LED lifetime:40000Hours			
LED quantity:4pcs SMD 5050 warm white LEDs +10pcs SMD 5050 cold white LEDs			
LCD display with calendar/alarm clock/thermometer functiions			
Emitting way	Direct emitting	Power consumption	4W
Intensity of illumination	800LUX	CRI	＞70
Working temperature	<50°	Power factor	>0.4
Switch mode	Touch		
Product N.W.	690g		
Product size	L145*W145*H330mm		

- Connect the power adapter in the rear of the lamp holder
- Press the power key can open the light(ref the details from operation instruction)
Lamp head the range of activities:

- Please hold the lamp holder at the same time when adjust the Angle of light head .
- Lamp head adjustable range of 180 ° (excessive adjustment activity joint part of the product can lead to functional damage) .
180°

90°
Lamp arm the range of activities:

- Lamp arm forward range: 90°
- Please hold the lamp holder at the same time when adjust the Angle of lamp arm .
